# Lukasz Kawecki

Junior Software Developer  
Web Developer

## PROFILE

I'm a Engineer in computer science with extensive knowledge of networks (LAN, WiFi), operating systems and computer equipment - this is my profession from University. I am currently trained in software development, web development and UI/UX design. I have serious passion for web development and UI effects, animations and creating intuitive, dynamic user experiences. My goal is to become a full stack-developer in future.

I am known for reliability and transparency; valued for competence and creativity; pays special attention to details.

I'm definitely software and web development passion driven person. I learn quickly and I am a very organized, I can organize my time well and productively, which helps me learn and do work at the same time.
